Below is a map of the United States. After reading pages 71-75, redesign the states **and** apportion the number of representatives each state can have in Congress using the guidelines below (don't forget Alaska & Hawaii):

*There can be no fewer than **8**, no more than **fifteen** states. *There must be a total of **125** total representatives in Congress (remember, 700,000 people per Representative). *States must have defined borders, and be colored in different shades. **BE SURE TO FOLLOW THESE GUIDELINES!!!**
